

Elfira Nurul Ilma

WEB DESIGNER

✉ elfiranurul02@gmail.com 📞 +62895-1636-6098 💻 ilmaelfiraa.github.io 🌐 ilmaelfiraa

I am a D3 graduate in Informatics Engineering specializing in UI design, responsive web design and visual development. Have experience as a web designer as well as a developer to improve work skills. Familiar with Figma, HTML, CSS, Bootstrap and CodeIgniter. Can communicate well and have a problem solving agreement. Currently I'm looking for a job opportunity that can hone my skills and gain experience.

EXPERIENCE

Web Designer & Developer (Freelance) 🏢 Nurul Hidayah Islamic School 📅 May – Oct 2022

- Designing and redesigning web pages using Figma to support easy access to information for users.
- Implementation of UI design into HTML and CSS using the Bootstrap framework at the front of the user interface.
- Database design with MySQL and implementation of back-end coding using PHP with the CodeIgniter framework.

Impact generated from the website:
On the website that was built, there were several improvements such as updating the display design, displaying data according to format and description, optimizing website information and making online registration for new students.

INTERNSHIP

Junior Web Designer 🏢 Agsa Global Network Company 📅 July – Sept 2021

- Designing wireframes and web display designs for company profiles.
- Turn UI design in Figma into static website pages with HTML, CSS and Bootstrap.
- Work individually and collaboratively and optimize website pages.

The resulting impact of web design:
Website design generated for profile information based on company requests.
